# TABLES OF CONTENTS

## SOIL MECHANICS AND FOUNDATION ENGINEERING

Numbers 1-6, 1965

(A Translation of Osnovaniya, Fundamenty i Mekhanika Gruntov)

Number 1 January-February, 1965

### CONTENTS

|   | Engl./Russ. |
|---|-------------|
| Let Us Introduce Deep Supports into Industrial and Civil Construction—E. P. Khalizev . . . . .                                      | 1 1         |
| CHEMISTRY IN FOUNDATION ENGINEERING   |             |
| Silicatization of Loess Soils—V. E. Sokolovich . . . . .  | 3 2         |
| Electrosilicatization of Soils in Leningrad—G. N. Zhinkin, S. A. Kogan, V. F. Kalganov,<br>and V. N. Boldyrev. . . . .              | 8 5         |
| SOIL MECHANICS  |             |
| A Horizontal Force in a Three-Dimensional Layer on a Rigid Base—O. Ya. Shekhter . . . . .   | 11 7        |
| Stress-Strain Analysis of a Beam Lying on an Elasto-Plastic Base—G. M. Reitman . . . . .  | 15 9        |
| Analysis of Strip Foundations on Nonlinearly Deforming and Inhomogeneous Bases<br>—Yu. K. Zaretskii . . . . .                       | 19 10       |
| FOUNDATION ENGINEERING  |             |
| The Bearing Capacity of Anchor Foundations—L. G. Mariupol'skii . . . . .  | 26 14       |
| A Foundation for Large-Panel Buildings on Slumping Soils with a Wide Spacing of Supports<br>—S. I. Kligerman . . . . .              | 33 18       |
| UNDERGROUND STRUCTURES  |             |
| Determination of Tangential Stresses by Full-Scale Measurements of Normal Pressures<br>—V. A. Lytkin and A. N. Dranovskii . . . . . | 36 20       |
| Use of a Model to Study the Stability of the Walls of an Unsupported Vertical Working<br>—A. V. Nadezhdin . . . . .                 | 40 22       |
| ADVICE TO DESIGNERS AND INVESTIGATORS   |             |
| A Table for Calculating Foundations with a Round Base—D. P. Krasenskii . . . . .  | 42 23       |
| INFORMATION   |             |
| Pile Foundations in Industrial, Agricultural, and Civil Construction—A. I. Lubnin . . . . .   | 46 25       |
| All-Union Seminar on Foundation Engineering—N. A. Rozhdestvenskii . . . . .   | 49 27       |
| All-Union Conference on the Artificial Stabilization and Compaction of Soils<br>—V. A. Gavrikov . . . . .                           | 50 27       |
| REVIEWS AND BIBLIOGRAPHY  |             |
| Calculation of Retaining Walls—N. I. Bezukhov . . . . .   | 54 30       |
| Will the Book be of Use to Young Specialists?—A. P. Pakhomov . . . . .  | 56 31       |
| Transactions of the Institute of Foundation Beds . . . . .  | 58 31       |
| Works on Soil Mechanics and Foundation Engineering Published in 1964 . . . . .  | 60 32       |

# SOIL MECHANICS

## Experimental Results on the Distribution of Normal Contact Pressure on the Base

of a Rigid Foundation Resting on Sand — Yu. N. Murzenko . . . . . 69 1

Determining the Lower Plastic Limit of Soil by Pressing — V. E. Ékman . . . . . 74 4

# EXPERIENCE OF CONSTRUCTION ORGANIZATIONS

Compaction of Foundation Soils by Heavy Tampers — P. K. Pryanik . . . . . 78 6

# FOUNDATION CONSTRUCTION

## Determining the Resistance of Tubular Piles Driven In by Diesel Pile Hammers

— N. N. Popov . . . . . 81 8

# CONSTRUCTION IN SPECIAL SOIL CONDITIONS

## Analysis of Deformations Caused by Thawing in the Foundations of Civic Buildings

(In Process of Discussion)—Ya. S. Mysholivskii. . . . . 84 10

## Formation of the Supporting Zone round a Pile Driven into Thawed Permafrost Ground

— Yu. M. Goncharov . . . . . 87 11

## Construction of Foundations of Buildings of Moderate Height on Ground Subject to Heaving

— V. A. Timoshenko . . . . . 92 14

# UNDERGROUND STRUCTURES

## Determining Thermal Stresses in Underground Structural Elements by the Optical

Polarization Method — G. L. Khesin, V. N. Savost'yanov, and E. M. Shvei . . . . . 95 16

Determination of the Elasticity of Rocks in Situ — Yu. R. Perkov and M. A. Dolgikh . . . . . 98 17

# ADVICE TO DESIGNERS AND INVESTIGATORS

Pressure of Earth Filler in Reinforced-Concrete Honeycomb Structures — V. V. Alipov . . . . . 100 18

## Formulas for Calculating Symmetric Pile Grillages with Elastic Embedment of the Piles

in the Soil — V. V. Mironov . . . . . 106 21

# DISCUSSIONS

## Methods of Calculating the Settlement of Structures on Cohesive Soils — I. K. Samarin

and I. V. Fedorov . . . . . 110 23

## Preparation of a New Edition of Building Codes for Permafrost Soils (In Place of Sn 91-60)

— V. P. Ushkalov . . . . . 115 26

# FROM FOREIGN EXPERIENCE

## Construction on Soils With a Low Bearing Capacity in the Democratic Republic of Vietnam

— Nguen Vankui and A. A. Apal'ko . . . . . 118 28

# INFORMATION

## Conference-Seminar on the Exchange of Experience of Construction on Permafrost Soils

— S. A. Bakalov . . . . . 122 30

# REVIEWS AND BIBLIOGRAPHY

## U. F. Babkov, N. V. Ornatskii, N. N. Maslov, and N. N. Ivanov. Problems of Highway

Construction at the Fifth International Congress on Soil Mechanics and Foundation

Engineering . . . . . 124 31

## "Construction," Encyclopedia of Modern Technology, Vol. 2 (Motion Picture Theater

Design) . . . . . 125 31

## Works on Soil Mechanics and Foundation Engineering Published in 1964 . . . . .

126 32

## Number 3 May-June, 1965

Engl./Russ.

### SOIL MECHANICS

- Calculation of the Settlement of Deep Foundations on Clay Beds—V. G. Berezantsev . . . . . 133 1
- Service Conditions of a Sand Foundation Bed under the Base of a Vertically Loaded Plate  
—A. P. Krivorotov . . . . . 139 4

### CONSTRUCTIONAL PROPERTIES OF SOILS

- Field Investigations of the Deformation of Slumping Soil under Experimental Plates  
—A. A. Grigoryan and B. G. Kulachenok . . . . . 143 7

### FOUNDATION ENGINEERING

- Establishment of the Values of the Safety Factors when Calculating Foundations  
for Stability—R. A. Muller . . . . . 147 9

### UNDERGROUND STRUCTURES

- Experience in Comparative Determinations of the Elasticity Moduli of Rocks  
in the Laboratory and in the Field—Yu. R. Perkov and M. A. Dolgikh . . . . . 151 10

### CONSTRUCTION UNDER SPECIAL SOIL CONDITIONS

- Wells for the Vacuum Method of Ground-Water Lowering in Bedded Soils  
—R. N. Arutyunyan, B. M. Kazakov, and A. D. Kleiman . . . . . 154 12
- Combined Work of a Building and Foundation Soil under Conditions of Large Deformations  
During Consolidation of a Loess Stratum by the Weight of the Structure  
—B. I. Chernyi, G. I. Kravtsov, A. P. Pshenichkin, and T. A. Mal'tsev . . . . . 157 13
- Experimental Driving of Friction Piles in Vorkuta in an Area with Deep Permafrost  
—V. N. Eroshenko . . . . . 163 16

### FROM THE EXPERIENCE OF CONSTRUCTION ORGANIZATIONS

- Construction of the Underground Rooms of Continuous Steel Casting Units by the Open  
Caisson Method (from the Seminar on Foundation Engineering at the Exhibition  
of Achievements of the National Economy)—K. P. Salamov, D. N. Bernar,  
and E. V. Korsunskii . . . . . 167 18
- Preparation of Foundations of Large-Panel Buildings in Zaporozh'e—V. A. Gubkin . . . . . 172 21
- Straightening the Leans of a Large-Panel House of Series 1-480-P after Settlement  
of the Foundation—Yu. M. Abelev, A. M. Dondysh, Yu. K. Ivanov,  
V. I. Krutov, Z. P. Lisovskii, and G. N. Pankin . . . . . 175 23
- Observations of the Foundation Deformation of the Moskva Hotel in Kiev  
—V. E. Vasil'evskii and M. M. Zakharenkov . . . . . 180 25
- Initial Bench Mark for Measuring Foundation Settlements—N. Ya. Rudnitskii . . . . . 184 27

### DISCUSSIONS

- Concerning the Project of the New Standard Document "Instructions on Determining  
Soil Characteristics (Standardized and Calculated)"—V. V. Mikheev,  
F. I. Sinel'shchikov . . . . . 186 30

### INFORMATION

- Works on Soil Mechanics and Foundation Engineering Published in 1964 and 1965. . . . . 190 Back  
Covers

## Number 4 July-August, 1965

### SOIL MECHANICS

- Experimental Investigation of the Pressure of a Loose Medium on Retaining Walls with a Vertical  
Back Face and Horizontal Backfill Surface—Z. V. Tsagareli . . . . . 197 1

|   |     |    |
|---|-----|----|
| Determination of Earth Pressure on a Retaining Wall with an Inclined Back Face in Relation to Its Displacements and Rigidity of the Foundation Soil - I. M. Besprozvannaya . . . . .  | 201 | 4  |
| Experimental Investigations of Foundation Stability of Structures on Rock-Free Soils. A. I. Kalaev . . . . .  | 208 | 7  |
| CONSTRUCTIONAL PROPERTIES OF SOILS  |     |    |
| Measurement of the Deformable Zone in Cohesive Soils (Field Investigations) - V. B. Shvets and P. P. Kazakov . . . . .  | 213 | 10 |
| A Penetrometer with Smooth Load Application for Testing Soils - A. G. Rud' . . . . .  | 217 | 12 |
| Experimental Investigations of the Deformations of a Two-Layered Foundation Soil with Determination of the Compressible Zone - A. P. Pochaevets . . . . .   | 220 | 13 |
| Relation between Deformation Modulus and Physical Characteristics of Alluvial Clay Soils - O. I. Ignatova and V. V. Mikheev . . . . .   | 225 | 16 |
| FOUNDATION ENGINEERING  |     |    |
| Vibration-Proof Foundation of a 16-Ton Drop Hammer - E. A. Azrilyant . . . . .  | 229 | 18 |
| CONSTRUCTION UNDER SPECIAL SOIL CONDITIONS  |     |    |
| Determination of the "Initial Pressure" for Slumping Soils of Novosibirsk - A. E. Shaevich . . . . .  | 233 | 20 |
| UNDERGROUND STRUCTURES  |     |    |
| The Distribution of Stresses in the Vicinity of Mine Workings with Consideration of Irregularities in Outline - V. I. Sheinin . . . . .   | 235 | 21 |
| FROM THE EXPERIENCE OF CONSTRUCTION ORGANIZATIONS   |     |    |
| Construction of Two-Story Stone Buildings on a Peat Bog - E. V. Makarov . . . . .   | 239 | 23 |
| ADVICE TO DESIGNER AND INVESTIGATOR   |     |    |
| Averaged Curve of the Pressure Dependence of the Slumping Properties of Soil - A. A. Grigoryan and B. G. Kulachenok . . . . .   | 242 | 25 |
| Corrections to the Example of Calculating Foundation Settlement with Consideration of the Effect of an Adjacent Foundation - S. G. Kushner . . . . .  | 244 | 26 |
| Nomograms for Calculating the Void Ratio $\epsilon$ , Porosity $n$ , Degree of Saturation $G$ with Respect to Unit Weight $\gamma_r$ , Bulk Specific Weight of Skeleton $\gamma_{sk}$ , and Water Content of Soil $W$ - A. I. Danilov . . . . . | 246 | 27 |
| INFORMATION   |     |    |
| Twenty-Third Scientific Conference of the Leningrad Civil Engineering Institute - B. I. Dalmatov . . . . .  | 248 | 28 |
| CONSULTATION  |     |    |
| Examination of the Design Depth of Freezing . . . . .   | 249 | 29 |
| New State Standards for Methods of Laboratory Determinations of the Physical Properties of Soils - A. A. Vasil'eva . . . . .  | 251 | 30 |
| Pile Foundations in Industrial Construction (All-Union Seminar at the Exhibition of the Achievements of the National Economy) - E. V. Svetinskii and V. I. Ostrov . . . . .   | 254 | 31 |
| Works on Soil Mechanics and Foundation Engineering Published in 1964-1965 . . . . .   | 257 | 33 |
| ERRATA . . . . .  | 260 | 20 |

### Number 5 September-October, 1965

|  |     |   |
|--|-----|---|
| CHEMISTRY IN FOUNDATION ENGINEERING  |     |   |
| Deep Consolidation of Ground by Carbamide Resin - I. V. Egorov . . . . .   | 261 | 1 |
| Behavior of Liquid Glass in a dc Field - B. P. Gorbunov and V. K. Chuvelev . . . . .   | 266 | 4 |
| Use of Polymers for Accelerating Pile Sinking - Yu. N. Litov . . . . .   | 268 | 5 |
| Use of Radioisotopes for Determining the Density and Moisture Content of Ground - M. I. Smorodinov and A. A. Morozov . . . . . | 271 | 7 |

## SOIL MECHANICS

|  |     |    |
|--|-----|----|
| Determining the Reaction Pressures beneath a Circular Plate on a Solid Foundation Bed That Exhibits Creep — N. F. Kakosimidi ..... | 275 | 9  |
| The Secondary Compaction of Clays — Z. G. Ter-Martirosyan and N. A. Tsytoich .....   | 280 | 12 |

## FOUNDATION ENGINEERING

|  |     |    |
|--|-----|----|
| Settlement of Single-Row Pile Foundations — A. A. Bartolomei and N. M. Doroshkevich ...  | 286 | 15 |
| Investigation of the Simultaneous Work of Grillages and Wall Panels on Full-Scale Reinforced-Concrete Elements — S. V. Timofeev, A. I. Yushin, and S. N. Shvedova .. | 290 | 18 |
| Calculation of Beams on an Elastic Foundation with a Variable Modulus of Subgrade Reaction — S. N. Klepikov .....  | 296 | 21 |
| Problem of Determining Forces in Structures of Large-Panel Buildings Caused by Differential Settlements of the Foundation Soil — V. I. Lishak .....                  | 300 | 23 |

## CONSTRUCTION UNDER SPECIAL SOIL CONDITIONS

|   |     |    |
|---|-----|----|
| Construction on Saline Soils — M. P. Poltev ..... | 306 | 26 |
|---|-----|----|

## FROM THE EXPERIENCE OF CONSTRUCTION ORGANIZATIONS

|  |     |    |
|--|-----|----|
| Use of Floating Pile Foundations in the Construction of the West Siberian Metallurgical Plant — A. A. Ben' ..... | 309 | 27 |
|--|-----|----|

## DISCUSSIONS

|  |     |    |
|--|-----|----|
| Results of the Discussion of P. P. Shagin's Article "On the Problem of Settlement Joints in Frameless Residential Buildings on Unevenly Compressible and Slumping Foundations" ..... | 312 | 29 |
|--|-----|----|

## INFORMATION

|  |     |    |
|--|-----|----|
| Construction on Weak Saturated Clay Soils (All-Union Conference in Tallin) — M. Yu. Abelev and A. Kh. Slavorosov ..... | 315 | 30 |
|--|-----|----|

## CRITICISM AND BIBLIOGRAPHY

|   |     |    |
|---|-----|----|
| Instructions on Designing Buildings and Structures in Undermined Areas. Reviewed by A. P. Staritsyn ..... | 318 | 32 |
| Works on Soil Mechanics and Foundation Engineering Published in 1964 and 1965 .....                       | 320 | 33 |

## Number 6 November-December, 1965

|   |     |   |
|---|-----|---|
| An Increase in the Economy and Use of Industrial Methods of Constructing Foundations in Agriculture — L. A. Nudel'man, M. G. Efremov, and V. Ya. Zhulin ..... | 325 | 1 |
|---|-----|---|

## SOIL MECHANICS

|  |     |   |
|--|-----|---|
| Calculation of Sheet-Pile Walls at the Elastic and Limit Stages of Work of the Foundation Bed — G. K. Klein .....                                | 328 | 3 |
| A Point Force Applied Inside an Elastic Wedge — O. Ya. Shekhter .....  | 334 | 6 |
| Investigation of the Depth of the Dynamically Active Zone of Soil and Some of its Characteristics — I. A. Mednikov .....                         | 338 | 8 |
| Solving the Problem of Limiting Equilibrium in a Free-Flowing (Quick) Medium by Mathematical Modeling — A. P. Luk'yanov and I. D. Molyukov ..... | 340 | 9 |

## FOUNDATION ENGINEERING

|  |     |    |
|--|-----|----|
| Precast Reinforced-Concrete Foundations for Turbogenerators — N. Ya. Turchin .....   | 343 | 11 |
| Selection of a Pile Hammer with Consideration of the Elastic Properties of the Soil and Pile Size — B. V. Goncharov and A. Kh. Enikeev ..... | 346 | 13 |

## UNDERGROUND STRUCTURES

|  |     |    |
|--|-----|----|
| Rock Pressure on the Lining of a Tunnel—I. A. Baslavskii . . . . . | 352 | 16 |
|--|-----|----|

## CONSTRUCTION UNDER SPECIAL SOIL CONDITIONS

|   |     |    |
|---|-----|----|
| Calculation of the Depth of Soil Freezing Near the Outside Walls of Heated Buildings<br>—I. G. Rabinovich . . . . . | 358 | 19 |
|---|-----|----|

## FROM FOREIGN EXPERIENCE

|  |     |    |
|--|-----|----|
| Reinforced-Concrete Shells as Foundations—A. N. Tetior . . . . . | 362 | 21 |
|--|-----|----|

## DISCUSSIONS

|   |     |    |
|---|-----|----|
| Value of Swelling Forces of Foundations in Khabarovsk—A. V. Pataleev and G. S. Alaev . . . .                      | 367 | 24 |
| Determining the Compressional Properties of Clay Soils and Peat by Graphical Analysis<br>—A. S. Korolev . . . . . | 372 | 26 |

## INFORMATION

|   |     |     |
|---|-----|-----|
| Basic Problems of the Dynamics of Bases and Foundations—D. D. Barkan . . . . .  | 376 | 29  |
| Conference of Young Specialists. . . . .  | 379 | 30  |
| [Sixth International Congress on Soil Mechanics and Foundation Engineering . . . . .  |     | 31] |
| B. I. Dalmatov, and O. A. Savinova. Designer's Handbook. Bases and Foundations<br>—Reviewed P. P. Sorokin. . . . .                  | 381 | 31  |
| Comments on Designer's Handbook. Bases and Foundations, Chapter 4, Section 3: Selecting<br>Foundation Depths—M. F. Kiselev. . . . . | 383 | 32  |
| [First International Congress on Rock Mechanics. . . . .  |     | 32] |
| Works on Soil Mechanics and Foundation Engineering Published in 1964-1965. . . . .  | 385 | 33  |
